To Whom It May Concern: ,

I am a member of the Board of Directors of the New England Watercolor Society. I have worked very closely with Steve Hamlin during the process of updating the New England Watercolor Society website. Steve has been extremely helpful, providing advice and offering innovative solutions for the design of our site. This is especially important because none of us have any experience designing and developing websites.

Steve has met with a group of us and provided simplified explanations of problems. He has been very responsive to our needs and desires and incorporated our thoughts into the design of the site. We are thrilled with the alterations made to the site. I do not hesitate in recommending Steve's skills as a website designer and developer.

Sincerely,

Jack Haran
