To whom it may concern:

A letter of reference for Steve Hamlin

I have worked with Steve Hamlin many times over the last six years. Steve is one of those, multi-talented (near genius), Western Massachusetts gems.

Last year Steve encouraged me to let him do a website for me. Some of the best advice I have taken. It is beautifully done. Please feel free to visit it.

Steve offers the whole package. He is a great web designer who can also edit and rewrite text, process an average photo into a finished product, or do the photo shoot himself.

Steve is a web designer, editor, writer, and professional photographer all wrapped up into a one-stop business.

Most importantly, Steve is an exceptionally patient man who is very pleasant to work with. You make no mistake contracting Steve.

Feel free to contact me by phone if you need more information.

Sincerely yours,

Paul Jeffrey Fowler
